# Implementation date and additional rounds 2012 and 2014

### Tobacco products package coverage and location

Graphic health warnings are required to cover the bottom 50% of the front and 50% of the back of the package. Overall, 50% of the package space is allocated to health warnings.

### Misleading information

Misleading descriptors such as 'light,' 'smooth,' 'mild,' and 'low in nicotine and tar content,' are prohibited from appearing on packages.

#### Constituents and emissions information

No message is required to display qualitative (descriptive) constituents and emissions information.

#### **Special notes**

Legislation applies to all tobacco products (combusted and smokeless) without specifying the content of the warnings for each type of tobacco.

## Rotation schedule, history, language, and help for smoking cessation

Argentina has produced two rounds of graphic health warning labels:

Round (Year)	Number	Size (%) [average— front/back]
R1 (2012)	10	50 — 50/50
R2 (2014)	10	50- 50/50

Warnings within each round are required to be rotated for a period of 12 to 24 months. Warning texts must be in Spanish, the principal language of the country. A quitline phone number and government-sponsored website are required to be displayed on one lateral side.

#### WARNINGS: 2014
